

CYPT CA VB MONTHLY NEWSLETTER

The Point

09/18/2023

ASSOCIATION NEWS:

CAC (Citizens Advisory Committee) Meeting: Our next CAC meeting will be at 6:30 PM on this Thursday (21 September) at Williams Farm Recreation Center. There will be speakers from Voter Registration, VBPD Youth Services, and VB Public Works. Light refreshments and a 50/50 raffle. Of course, the 3rd Precinct will present a statistical report on recent crimes and answer your questions. The meeting is open to everyone in the 3rd Precinct and is free.

Association Meeting: At our next association meeting (on November 14th) we will have Joash Schulman as our guest speaker. Mr. Schulman is the District 9 city councilman. By now I hope you know we are district 9. Please come out and say hello and maybe ask a question or two of your city councilman.

Election: Since no one has stepped up to the plate and volunteered to run for a position on the board the default slate will be your board so long as we achieve a quorum of about 20 households voting "aye". The slate is:

Bill Filbert	President
David Gonzales	1 st VP
Wes Neal	2 nd VP
John Bilzor	Treasurer
Ben Miller	Secretary

Our bylaws allows electronic voting by email so at this point you can simply send me an email at wfilbert@gmail.com or Ben Miller at ebenmiller4@gmail.com, saying "I or we vote for the slate of officers as presented on 18 September 2023".

Time to Pay Your Dues: So I have been reminding you of this for the past several months and the good news is that the nagging will stop. **The bad news is that if you haven't paid your dues by 1 October this will be your last communication from the association.** I'll be removing past due members from the distribution list on that date. I'm also considering a proposal to the board that in future years dues received after June 1st will require a \$5.00 additional late fee.

Website: Don't forget to check out our website from time to time. You'll find it located at: <https://cyptca.com/>.

A New Fall Event: This year's Mayflower Marathon run by the Foodbank of Southeastern Virginia will be on the weekend of 18 November. We're asking you to participate by donating non-perishables and/or cash to this activity. You can either drop your donation off at my house (5493 Club Head) on Friday 17 November or put your donation in plastic bags by your mailbox (not in it) during the afternoon of 17 November and we'll pick them up. Please check the labels-no expired good can be accepted nor anything in broken packaging or non-standard packaging (we can't take half or even a whole Happy Meal)

Disaster Prep- Disaster Insurance:

Disaster insurance, or catastrophe insurance, protects real estate properties against natural disasters and sometimes human-made events, such as rioting, terrorism, or explosions.

While these disasters are rare, their damage can cost a significant amount, which is why homeowners and property investors should cover themselves just in case.

You might be wondering why you need catastrophe insurance if you already have homeowners insurance. Catastrophe insurance covers what homeowners insurance doesn't. Homeowners policies cover only named perils. If a natural disaster causes damage to your property, but your homeowner's insurance doesn't explicitly name that type of disaster or damage, then the costs are not covered.

Often, even an "all perils" policy won't cover some disasters. Typically, these insurance policies leave out damage due to earthquakes, mudslides, pollution, or other human-made disasters.

1. **What perils are covered?** Many policies offer broad or basic coverage. The perils limit what types of losses are covered. Under a special or "all risk" form, you are covered unless it is specifically excluded. Please note that floods and earthquakes are typical exclusions.
2. **Will you receive payment based on replacement cost or actual cash value?** If you have a replacement cost, there is no depreciation withheld when you settle your loss.
3. **Do you have a coinsurance clause?** If you're not sure how coinsurance works in a property insurance policy, it is important to find out.
4. **What amount of coverage do you have in place?** Is the amount of coverage you have in place adequate to repair or rebuild?
5. **What's your loss of rental income coverage?** Many investors also suffer a loss of income in the event of a claim. Do you have sufficient loss of rental income coverage in place if you have a covered insurance loss? Most insurers will cover you for up to 12 months of lost rental income while your dwelling is repaired or replaced

Crime Prevention:

One-time password (OTP) bot scam

Credit reporting company Experian warns that scammers utilize bots — automated programs — to deceive people into sharing the two-factor authentication codes sent to them via text or email from financial institutions (or from companies such as Amazon). The bot will make a robocall or send a text that appears to come from a bank, asking you to authorize a charge, then it asks you to enter the authentication code you’ve just been sent if the transaction isn’t yours. It’s actually the bot that’s trying to log into your bank account, and it wants the code that the bank sent to you as a precaution, so it can get in.

How to stay safe: Never share authentication codes, or provide other information, in response to an unsolicited phone call or text.

To report a scammer, you can take the following steps:

1. Contact local authorities if you’ve lost money or material possessions.
2. Contact your regional reporting center.
3. Report the scam to the FTC at [ReportFraud.ftc.gov](https://www.ftc.gov/report-fraud)¹.
4. Notify the social networking site or app where you met the scammer.
5. Check out what’s going on in your state or metro area by visiting [ftc.gov/exploredata](https://www.ftc.gov/exploredata)¹.
6. Call the FTC at 1-877-382-4357 between 9:00 AM and 8:00 PM, EST to report a scam by phone

Safety Patrol for September:

As the air turns cooler and leaves drop from the trees, it's important to keep a few important fall safety tips in mind. With proper precautions and safety awareness, your family can enjoy that crisp autumn weather while avoiding some of the dangers that come with the season. When the weather turns cold most people spend more time inside their homes using fireplaces, furnaces, and heaters to keep warm. There's nothing quite as cozy as a fire, but it presents some safety hazards. Keep these tips in mind.

- **Service Your Furnace** - Before the cold autumn and winter weather sets in, be sure to call your heating and cooling company to service your furnace. A specialist should inspect the furnace to make sure everything is in working order and that there are no leaks.
- **Use Fireplaces Safely** - Keep that fire in its proper place by using a fireplace screen to keep sparks from flying out of the fireplace. Never leave a burning fire unattended, and make sure a fire in a fireplace is completely out before going to bed.
- **Use Caution with Space Heaters** - A space heater can be an effective way to warm up a chilly room, but it's essential that you read the instructions on the unit before you use it. If your space heater requires venting, make sure you have vented it to the outdoors. Never use your stove or oven to heat your home; only use space heaters that are approved for this purpose. Always allow at least three feet of empty area around space heaters.

In The Garden in September: The basics of planting grass seeds on hard soil

Hard dirt can occur when the soil particles are very small, as in heavy clay soil. Lawn soil can also be hard because it has been compacted over time. Soil out in nature doesn't get too much foot traffic. The absence of heavy traffic allows air to exist in some of the void space between soil particles. Grassroots need this air! So, compact soil that doesn't have much air available isn't going to be the best for grass roots and turf.

In most residential lawn cases, hard dirt is caused by high clay content or by soil compaction. A soil test will tell you if you have awful heavy clay. It will tell you if perhaps your soil has less organic matter than you hoped. Or maybe your lawn used to be a gravel driveway. It's hard to grow healthy grass on an unknown growing medium.

Dirt becomes hard when air pockets get squished out of it. Perhaps the air pockets were squished out by glaciers thousands of years ago. Or maybe a car drove over the lawn area. Whatever the cause, compacted soil does not have a nice mix of minerals, air, and water. One way to re-introduce air into the soil is with a core aerator. A core aerator is a machine that pulls out little plugs of dirt, leaving small holes of air in the soil. The machine is about the size of a lawnmower and is usually available for rent. A half-day rental will do for most residential lawns.

Core aeration is usually a good idea for residential lawns, which are often compacted. It will create lovely air voids for the grass root zones. These void spaces also hold moisture to help grass through dry spells.

Core aeration is often followed by top-dressing the lawn with compost. This entails using a wheelbarrow and rake to put about an inch of bulk compost on the aerated lawn. This increases the organic matter on the soil surface, as well as down in the holes from the core aerator.

Many lawns will be ready for seed at this point. Be aware you may have to core aerate every spring and fall for several years to start seeing a difference. It's not a short-term fix, but it is relatively easy and cost-effective.

History Corner:

September 2, 1945- President Harry Truman declared V-J Day (Victory over Japan Day)

September 3, 1783 - The Treaty of Paris was signed by John Adams, Ben Franklin and John Jay, formally ending the American Revolutionary War between Britain and the United States.

September 5, 1774 - The First Continental Congress assembled in Philadelphia with 56 delegates

September 8, 1565 - The first Catholic settlement in America was founded by Spaniard Don Pedro Menendez de Aviles at St. Augustine, Florida.

September 9, 1776 - The United States came into existence as the Continental Congress changed

September 2, 1864 - During the American Civil War, Atlanta was captured by Sherman's Army.

September 2, 1945 the name of the new American nation from the United Colonies.

September 11, 2001 - The worst terrorist attack in U.S. history occurred as four large passenger jets were hijacked then crashed, killing nearly 3,000 persons.

September 13, 1814 - The Battle of Fort Henry in Baltimore Harbor occurred, observed by Francis Scott Key aboard a ship.

September 16, 1620 - The *Mayflower* ship departed from England, bound for America

September 16, 1908 - General Motors was founded by entrepreneur William Crapo "Billy" Durant in Flint, Michigan

September 17, 1787 - At the Constitutional Convention in Philadelphia, delegates from twelve states voted unanimously to approve the proposed U.S. Constitution.

September 17, 1862 - The bloodiest day in U.S. military history occurred as General Robert E. Lee and the Confederate armies were stopped at Antietam in Maryland

September 18, 1947 - The U.S. Air Force was established as a separate military service.

September 22, 1776 - During the American Revolution, Nathan Hale was executed without a trial

September 29, 1789 - Congress created the United States Army

CCO NEWS: CCO is having its next regular monthly meeting on September 21st at 6:30 PM-8:00 PM at the Bow Creek Rec Center. Meeting is free and open to everyone.
